The program

OBJECTIVE

Mastering a new language can open doors toward your goals. That's why we've developed flexible, **100% online, results-focused teaching** models so you can study according to your own availability.

More freedom for you!

Access the [Lingopass platform](#) 100% online from your computer, phone or tablet browser and enjoy a complete experience anywhere.

Your **course progress** is saved no matter which device you use to access the platform.

FEATURES

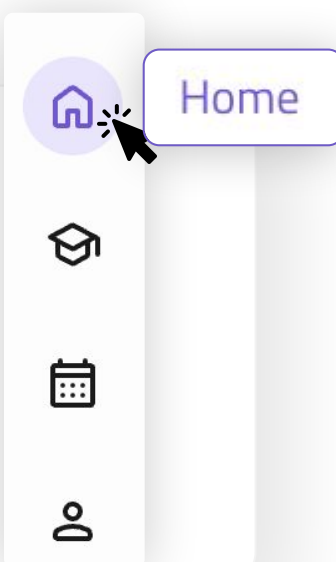

VIRTUAL TOUR

To get to know the platform, click on the **Virtual Tour** and discover the main features that will help you start your learning journey with all the information you need to reach your goals.

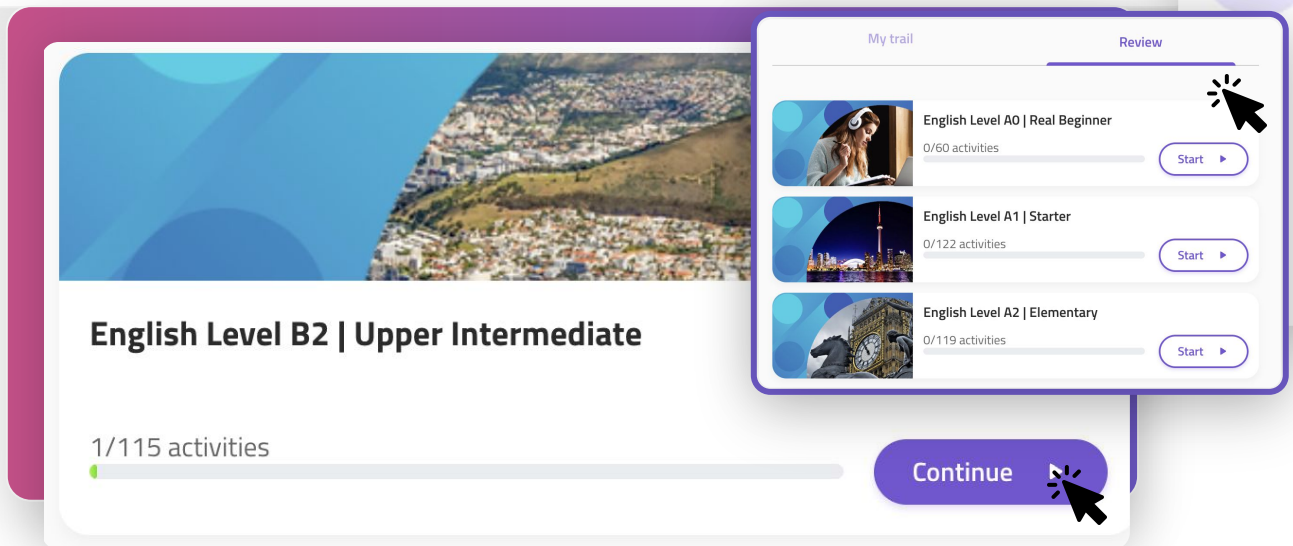

SIDE MENU

The side menu brings together the platform's main shortcuts: in **Home** you access the main page, in **My Courses** you find your classes and materials, in **Calendar** you can access live classes and in **Profile** you track your progress.

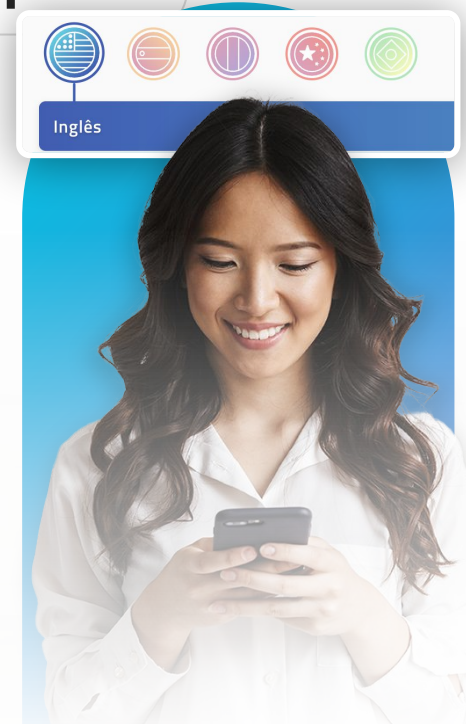

MY COURSES

In **My Courses**, you access all the content on your learning path. The screen is organized to focus on what you need to study now, based on your level, and right next to it you can already see the upcoming modules that will be unlocked later. In the **Review tab**, you can go over everything you've already learned whenever you want.

Studying more than one language?

Just select which one you want to access at the top of the screen. Each language follows the same path and study structure, **with your progress tracked separately for each one.**

CALENDAR

When you open **Calendar**, you'll see your upcoming **available classes**. Access the **PDF material** to prepare, or **save the class to your own calendar** so you don't miss it.

What do I need to join?

You don't need to book a time slot or reserve a spot. Just keep an eye on the **class schedule** and log in to the platform on the scheduled day and time.

How to participate?

When a class is about to start, its card turns **purple**. That's your cue to click **Enter Room**! You can find this button in two ways: through the Calendar icon, in the panel that opens on the right, or through the featured card on the home page.

As soon as the tutor starts the session, the **Join Live Class button becomes active**.

CLASS MATERIAL

Inside the class event in the calendar, you'll find a materials library with PDFs organized by **Date and Topic**.

Download the file for your class and study it to make the most of that learning moment.

Skills and Competencies

LEVELS IN PRACTICE

A1 – A2

Básico

Starts from zero and reaches everyday functional communication: begins with practice exercises and study routines, moves on to introducing yourself and exchanging simple messages, and wraps up the level by reporting on ongoing or completed tasks and understanding direct requests in your field.

B1 – B2

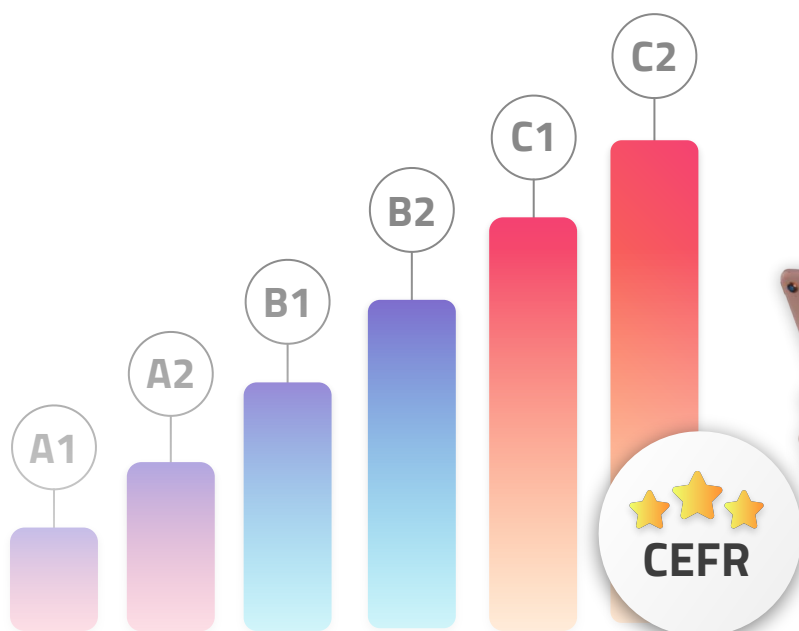

Intermediário

Starts working independently on projects and with global teams: begins as an active listener in meetings and progresses to discussing complex, technical topics fluently, including taking part in negotiations.

C1 – C2

Avançado

Takes on leadership with near-native fluency: presents results, writes technical texts, and delivers pitches, even giving talks on your field, picking up on cultural nuances, and mentoring teams with ease.

Level Structure

ALL AVAILABLE COURSES (FROM LEVEL A1 TO LEVEL C2)
HAVE 16 STAGES:

12 CONTENT UNITS

4 ASSESSMENT UNITS

Each path (A1-C2) is made up of **16 units**: 12 self-study units and 4 assessment units, which count toward your certificate grade.

12 CONTENT UNITS

These units include **video lessons**, **interactive content**, and **practice exercises**, and their scores don't count toward the course certificate.

Fully completing these stages is required to unlock the next ones.

ASSESSMENT UNITS

Each of these assessment activities can be attempted up to three times.

The scores you earn are added to the final exam to form your level average.
